	Responsible Tourism Policy		Rev: 0	Page: 1 of 1

Aware of the importance of guaranteeing sustainable tourism, and in keeping with the principles and goals adopted at the World Summit on Sustainable Development 2015, COP 21 and the World Charter for Sustainable Tourism +20, the *Node Garraf, Agència de desenvolupament economic* is committed to the sustainable management of its activities by adopting commitments aimed at preventing, eliminating or reducing the impact of our facilities and activities, both internal and external, as well as optimising the sustainability of the property by enhancing its relationship with the environment.

Likewise, our company has adopted the following Responsible Tourism Policy, whereby it undertakes to comply with the requirements set out in our BIOSPHERE membership, which includes legal requirements that regulate the effects of tourism.

We're also committed to motivating and training our staff about the principles of responsible tourism and best environmental practices. What's more, we take part in external activities on environmental awareness and we inform our staff, our guests and society as a whole about the company's environmental progress and actions.

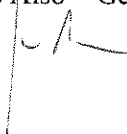

Our property is firmly committed to the fight against sexual exploitation or any other form of exploitation and harassment, in particular of children, adolescents, women and minority groups, and we strive to adopt universal accessibility measures.

One of our core goals is to guarantee the best form of sustainable management, thereby guaranteeing continuous improvement in all areas of sustainability: social, economic and environmental, as well as customer satisfaction. In keeping with this, any future extensions to our facilities or activities will be subject to criteria of sustainability and efficiency in the use of resources.

This Responsible Tourism Policy will be updated whenever circumstances require, in which case we will adopt and publish our new sustainability goals.

Signed

Isidre Also - General Manager
